

*Just like a bank, only better.*

## Emergency Preparedness

Are you and your family prepared?

It's important to be aware that not only do we need to be prepared at home with the basic necessities (food, water, radio, first-aid kit) but we know you'll want to have a plan as to how you will access cash, make purchases and pay your bills, should a disaster strike.

Here are a few tips to help you:

### **Online Banking and Mobile Banking**

A great way to access account information.

Go to [vonscu.com](http://vonscu.com). Need help getting started?

Call us at 626.444.1972.

### **Direct Deposit**

Without a doubt, this is the best way to have your paycheck deposited! If your payroll department sends it to us, we will deposit it into your account.

### **Visa Credit Card**

We recommend you always carry our ATM/Debit card AND our Visa Credit Card so you have a backup card if one is lost or damaged. You can apply for our Visa Credit Card over the phone today!

### **FREE Access to your cash at Shared Branches:**

Make deposits, transfers and withdrawals at over 7,000 credit unions in our Nationwide Network.

(Bring your ID and account number) Go to

[www.co-opcreditunions.org](http://www.co-opcreditunions.org) to print a list of local shared branches in advance, so you're prepared.

Please be aware that should an emergency situation occur, we have a Disaster Recovery and Business Continuity Plan. Our back-up systems are designed to minimize interruption, keep your account information secure, and your funds available. Our plan includes a network of people and resources whose priorities are protecting the safety of our employees and members in our branches, as well as maintaining service to our members.

For more information on Emergency Preparedness, go to: [www.ready.gov](http://www.ready.gov)
